

Category:lomega brands Category:Film editing software Category:Fujifilm Category:lomegaQ: Other ways to say "strong characterization" or "the topic of a novel"? A few years ago, I read an article in which the authors remarked about the "strong characterization" and said they "love narrative that builds strong characters to hold the reader's interest." I was quite intrigued by this way to say "strong characterization" and began looking for other ways to use this phrase to describe the story's characters. Other than the way the article authors used it, I have not come across any others, and I have also searched the Internet for other possible expressions or colloquialisms. The context was when they were talking about strong characterization and why it is important. So I have not asked for more details about their specific example. My question is this: is there another way to say "strong characterization"? A: I've seen and used "high-caliber character development" and "well-drawn characters" and "excellent characterization" (I've seen "strong characterization" thrown in there sometimes as well, but it does not seem as common as the others.) I've never seen "strong characterization" used in the sense that you asked about; it usually has a slightly more-positive connotation. Google is paying \$4.5 billion for Motorola Mobility to end the patent warfare. Google is paying \$4.5 bn to acquire Motorola Mobility and turn the struggling US company into a major player in the Android hardware market. The deal was a welcome surprise for those who have been watching the tech giant as it has struggled to turn Motorola into a viable rival to Apple's iPhone. The sale ends months of tension between the two companies after Google decided to acquire Motorola Mobility for \$12.5bn in April, a huge sum of money that made clear its disdain for Motorola's wavering commitment to Android, its business model and several patent battles with Apple. The deal was announced in a briefing at the Googleplex in Mountain View, California, on Wednesday. In announcing the deal, Google CEO Eric Schmidt said the purchase will "permanently" shift Motorola's primary business focus away from smartphones and into mobility technology. "We will work hard to integrate Moto's technology assets and patents into
