Save Session and Playback URL. -TITLE Macro: Save Session and Playback URL -DESCRIPTION Saves the Songbird session and playback URL and displays it in the tooltip. USAGE 1. Set status.macro.save.session to the macro name in the dictionary in Preferences 2. Open the Macro tool in the Songbird Preferences in the Macros section and select save session as the macro from the menu. The macro will now automatically appear in the Tools/Macros section of the Songbird preferences. 3. Save the macro to the dictionary by clicking the Save button, name it whatever you like. 5. Click on the Macro to run the macro. 6. Click again on the macro to use the macro. It should be noted that in order to view the saved Playback URL in the tooltip the macro must be set to the default of Save session and playback URL If you need to run this macro more than once, it is a good idea to create a New Session macro which runs the Save session and playback URL macro for each session.
