
Need for Speed: Undercover (Instructional Version)

How to install it on any device. Feb 3, 2020: How to setup audio settings to NFSU on your PC: Before you can play any audio through your computer's speakers, your sound card's volume control must be set to allow an audio device to control the PC's output. Aug 4, 2020: How to set up audio settings in Windows 7: Disconnect your audio devices from the computer. Press Windows Key + I. Click the drop-down menu on the lower left of the window, and then choose Device Manager. After a couple of seconds, the Windows logo will flash, then the Device Manager window will pop up, displaying all your audio and sound devices. You can view their settings and capabilities by clicking "More Details" on their tabs. Note: If there is no sounds and the soundcard is supported. You can play normally. Oct 19, 2020: Remove the add-on in order to play the game. To install: Extract into game's main folder. To configure edit NFSUndercover. (All files are 100% virus free & scanned from Norton 360) Need for speed undercover addon (A "patch" for a cracked file) doublepix.exe *Please note the above link will download a cracked file. You're better off to download this addon from the source as it comes with no problems. To extract the following files click the button below: a. paul.dll. b. nfs.exe. c. nfs_exe_play2.ini. *beware, use only the 1.0.1.17 file. 1.0.1.18 file is a "cracked" version that you shouldn't use. 1.0.1.18 file is like the original 1.0.1.17 file but with a small problem, the fck.dll is edited. Upon extract of the addon doublepix.exe, install the addon nfs_exe_play2.ini file. (All files are 100% virus free & scanned from Norton 360) April 6, 2020: The NFS Undercover 1.0.1.18 Patch File is a cracked file in order to patch a cracked game, one that had a virus. This is made for legal purposes. Please use the the NFS Undercover 1
