When downloading software, please make sure you're installing it to the correct folder on your computer. The development of the human race was often guided by the spirits of our ancestors. These spirits would watch over us and guide us while we were asleep, or awake, and make sure we were keeping the path laid out for us by the Great Spirit. They would help us, if we asked them to, as long as we honored and respected them. After the death of these spirits, the bodies and minds of the people would often become spooky. With the people becoming spooky, the Great Spirit would withdraw, letting the darkness of the universe spread. The spirits of our ancestors would appear to the people and lead them back to their original joy and happiness. Although your spirit may be spooky, it might be possible to bring it back to its old, natural state. You can do this by opening the box in which you found yourself. As you begin the opening process, you will notice some messages on the screen. The spirit of the ancestors who brought you here are on the screen. Use your keyboard to talk to them. When they answer, press the "next" button to continue. Your ancestors will be able to help you, if you ask them to. They will tell you that the spirit of the universe is watching you. And they will tell you that you should return to the place

from which you came. Do this by pressing the "next" button. If you need to, you can return to your life by pressing the "previous" button. And remember, if you ever loose your box again, you can always find it
