Windows 10 Firewall Control Plus Portable Download

Windows 10 Firewall Control Plus Portable is a useful network security application for ensuring that your network is free from all threats and zero-day viruses. Windows 10 Firewall Control Plus Portable are intended to add an extra layer of security to your computer, thus monitoring and analyzing the network data traffic and incoming / outgoing packets, as well as blocking potentially harmful processes. The program is aimed at controlling personal information leakage and preventing other apps from sending personal data to unauthorized sources. Since Windows 10 Firewall Control Plus Portable comes with a multi-tabbed interface namely 'Programs', 'Blocked Events', 'Zones', 'Port Forwarding', 'Settings' and 'Statistics', you can easily specify the permission policy for each process. Intuitive and easy to interpret UI The first tab displays all of the registered and controlled applications. Each time a new process is detected, the program will prompt you with a notification message from where you can choose the safety zone you are interested in. By accessing the next tab, entitled 'Blocked Events', you are able to view all the processes, services and apps that were not allowed to connect to your PC. Considering that various processes and services attempt to perform further modifications to your computer, you will surely need to monitor them in a proper manner. You can also adjust the blocking reason by adding related permitting rules promptly. Enables you to monitor all traffic activities Since there are various applications that require external incoming access from the Internet, here speaking of server tools (e.g.: Web and FTP), communication utilities (e.g.: IP phones and instant messengers) and peer-to-peer programs, the 'Port Forwarding' tab stays at your disposal. Windows 10 Firewall Control Plus Portable will track down all the apps that require external incoming access, acting as a filtering barrier between the protected computer and the network and sorting out the incoming and outgoing packets. An efficient tool for safeguarding your computer Overall, Windows 10 Firewall Control Plus Portable proves to be a steady and reliable solution when it comes to controlling your network traffic, protecting your PC against online threats and monitoring all the processes and services. Windows 10 Firewall Control Plus Portable are intended to add an extra layer of security to your computer, thus monitoring and analyzing the network data traffic and incoming / outgoing packets, as well as blocking potentially harmful processes. The program is aimed at controlling personal information

What's New In Windows 10 Firewall Control Plus Portable?
