A CAD program is a set of tools that are used to design and produce drawings. They include tools for modeling, layout, annotation, presentation, and review. CAD programs can be hardware, software, or a combination of both. Since 1982, there have been at least 13 major upgrades (generations) of AutoCAD. In 2005, Autodesk launched AutoCAD Web Design, a web app that enables the creation, presentation, and maintenance of web pages, especially for small businesses. On Tuesday, Aug. 29, Apple debuted the iPhone 5s in a statement during its Sept. 9 event. The iPhone 5c will go for $49 with a two-year contract from AT&T and other carriers, $99 with a two-year contract from Verizon and $149 off contract from T-Mobile. (Apple is in the midst of a new trial period for the carriers, and the price has yet to be finalized.) The iPhone 5c was born in early 2013 as a lower-cost option for consumers who didn't mind the older hardware in exchange for the price and a similar, if not better, experience than the iPhone 5.
