A: You can download the SQL Server Management Studio Express which is free and will allow you to access the MS SQL Server database servers with an intuitive GUI interface. The tool includes a number of tools, some of which you may already know how to use in your day-to-day tasks (e.g. the Query Designer), others which will be new to you (e.g. the Object Explorer, the Table Designer). The Steelers are traveling to London this weekend to face the Jaguars in the first of two games on the road. That means they will be staying at the Hilton London Metropole which is considered one of the best hotels in London. While the Steelers and Jaguars play Sunday night, the Steelers are still in London for a weekend. While the Steelers' game against the Jaguars is taking place on Sunday night, the Steelers are still staying at the Hilton London Metropole. While it's a nice stay and everything, there's another reason the Steelers are staying at the Hilton London Metropole and it has nothing to do with their game against the Jaguars. (How much can the Steelers improve?) During their training camp last year in London, every off-season the Steelers
