Advanced Launcher

Advanced Launcher is a Windows utility that allows you to quickly create custom toolbars with links to programs, documents, system folders, commands, Internet pages, email addresses, and menus. It's a small application with multiple settings, so it's easy to create a new toolbar from scratch. Cost: Free Platform: Windows Advanced Linker A user-friendly shortcut tool with a beautiful design. It's designed to simplify your daily work in the following three ways. Ease of use Unlike other shortcut tools, Advanced Linker does not request a constant Internet connection and allows you to create as many shortcuts and links to pages as you need. For example, you can create shortcuts for contacts in Microsoft Exchange Server or a URL to a page in your favorite news website. The program offers a pretty simple interface where you can add or delete shortcuts and edit the properties of existing ones. Advanced Linker works perfectly for both Windows 7 and Windows 8, and it can be updated through the integrated updater. You can decide whether to use the tiny toolbar by default, minimize it to the systray, or dock it. Manage links with ease Advanced Linker gives you the ability to arrange the shortcuts and links in a toolbar, change the caption and icon of the toolbar, and even dock it to a convenient position on the desktop. In the toolbar's settings, you can also customize the appearance of the buttons with multiple colors and sizes. By default, Advanced Linker launches Windows Explorer, the Internet browser, and system settings, but you can change the default behavior according to your preferences. You can also specify whether the "Add this shortcut" action should automatically change its size, or it should stay the same, according to the size of the window. Accurate parsing Advanced Linker can recognize and modify the format of file, e-mail, or URL addresses, so you can easily create shortcut links to any existing file, webpage, or e-mail message in the default browser. Advanced Linker is a simple tool that allows you to create shortcuts with any number of URLs or files in your preferred format. Create as many shortcuts and links to system folders, file types, mail messages and contact details as you want. Advanced Linker gives you options to customize each shortcut and link, such as a captivating icon, launcher button, or size of the link and the attached application. Advanced Linker is a free application that you can use for your convenience.
