ExamView Test Player is a handy program that enables you to take tests in order to check your knowledge on different topics. The program can be used successfully by teachers in order to test the students and by students to prepare for upcoming tests. This program only allows you to view the content of a test and to answer the questions. You can find tests by searching the Internet or create your own test by using the ExamView Assessment Suite. The program provides the environment required to take a test by presenting the questions and allowing the student to fill in the correct answer. The test can have multiple choice questions or require that a single correct answer is entered from the keyboard. The program can accommodate both types of tests. To start using the program the student needs to enter the name and the student ID before selecting the test. After the test is selected the program generates a short description that includes the name of the test, the number of questions and the time interval that is given for the answers. Any other special rules are also presented in this description. For instance, for the multiple choice tests you might have the option to verify your answers before getting to

the next question. This can offer you with the certainty that you have provided the correct answer before moving on. During the test you can navigate through the questions and change your answers. This can be restricted by the test creator but it is available by default. The application's menu allows you to quickly go to a specific question from the test by selecting it from a list. This enables you to be effective and not waste precious time browsing through the questions. After finishing the test, the program provides you with a result sheet with your ID information, the date and the result of the test. This can also include detailed information about the test such as the result for every question and the steps to get to the right answer. Printing it is supported, so you can keep track of the results. ExamView Test Player can prove to be a useful assessment tool that provides immediate feedback for both the student and the teacher.

Dan Marino won't play again... that's never happened before. The NFC hasn't had a chance to win the Superbowl since the 1980's (when the Rams played their games). Let's face it, the New Orleans Saints

are getting WAY more press then they deserve. After all, they have won twice as many games in the NFC as they did in the AFC over the last five years (they haven't won more games in either conference in any year since 2005). But the Saints also have an excellent backup quarterback in Sean Canfield, a wide receiver who looks like a second round pick in tight end Jimmy Graham, and the best running back in the NFL (Pierre Thomas) among their offensive weapons. They have two of the best safety tandems in
