AutoCAD LT is an entry-level version of AutoCAD, suitable for beginners and offering most basic drafting and modeling features. It is available as a free download for non-commercial use or on a subscription basis for commercial use. Contents

The user interface The interface is arranged into different panels, or "tabs". The currently selected tab is indicated in the top right corner of the screen. In order to move to another tab, click on the corresponding tab title (top right corner). Alternatively, a mouse click on the tab title will also switch to that tab. To close the currently selected tab, click on the small triangle icon (top right corner). Alternatively, select File | Exit to close the application.

The design workspace At the very bottom of the interface, there is a toolbar containing icons and menus which are used for most of the drawing operations. In order to access the toolbar, click on the Toolbar icon (bottom right corner). Alternatively, a mouse click on the toolbar icon will also show the menu. To move to the next toolbar, click on the small arrow icon (bottom right corner). Alternatively, a mouse click on the toolbar icon will move to the next toolbar.

Several shortcut icons can be found in the design workspace to access certain features. They are described below.

Borders: Select the 3-D Borders icon (top right corner) to toggle on/off the 3-D view of the drawing.

3D: Toggle 3D view on/off. Select the 3D View icon (top right corner) to toggle between AutoCAD's 2D view and the 3D view.

Undo/Redo: Click on the Undo icon (top left corner) to access the Undo/Redo window. Toggle the first/last command to access the Undo/Redo window in reverse order.

Pan/Zoom: Click on the Zoom icon (top left corner) to access the Pan/Zoom window. Click on the arrow icon (top left corner) to toggle between Zoom and Pan.

Grid: Click on the Grid icon (top left corner) to access the Grid Options window. Toggle the Grid Off/On/Show to access the Grid Options window. Select the Grid Color to change the color of the grid.

Table: Click on the Table icon (top left corner) to access the Table

AutoCAD also includes other API (Application Programming Interface) and OLE automation support: AutoCAD Object Language (ACDOL) is a programming language which is included with AutoCAD. It allows programmers to program AutoCAD features and commands in a standard

(Object Pascal) Object Oriented language. AutoLISP is an extension of AutoCAD's own script language. It allows writing and running AutoLISP scripts. Visual LISP is a subset of the AutoCAD Object Language, or rather, AutoCAD's own script language. It allows programmers to write scripts in the same language as that used to run AutoCAD. Visual LISP is a script language for use with the Microsoft Visual Studio.NET development environment. VBA (Visual Basic for Applications) is a scripting language that allows simple scripting of AutoCAD, third-party add-ons and other Microsoft products. The programming language is similar to Visual Basic. It was released with AutoCAD 2007 and is integrated with Microsoft Office 2007. VBA was an evolution of Visual Basic 6, and is now discontinued. .NET (e.g. Autodesk Web Design) is a common language that includes VBA. Visual Basic is the Visual Basic equivalent. ObjectARX (ARX) is an architecture-centric set of objects that are based on the concepts of Building Information Modeling (BIM) developed by DNV GL. This allows for the integration of the architectural data with AutoCAD. NewERP is a platform-independent, web-based application server and framework, including web application development that allows for flexibility and customization. NewERP is an enterprise resource planning solution for architects, engineers, and other professional disciplines who work with 3D information in AutoCAD. Awards and recognition Autodesk has received awards from PC Magazine and was ranked #15 in ComputerWorld's "Best User Interface Awards." In 2012 Autodesk was ranked #3 in Gartner's "Cool Vendors in Cloud, Platform as a Service."
