time format in Ubuntu is 7:16PM, when my native language's format is 12:16PM. Can I change this to display 12:16PM instead? A: Though the answer in the question comments is correct, I felt like writing a proper answer as there is a GUI for changing the time format. Launch the Settings, by pressing the super key and then typing "Settings". It'll give you a list of the shortcuts you can use to access the Settings. At the bottom of the settings, there is a "Time and Date" tab. Within the Settings, go to the "Date and Time" tab, and click on "Show date and time". From the dropdown in the "Time and Date" tab, you can set the format for the time. {{this.title}} {{this.description}} □□□□
