When teams compete in a FIFA match, they run, jump, pass, shoot, fight, and more -- everything you'd expect from one of the world's best video games. You can even let your teammates shoot on goal using the A.I.-controlled goalkeeper.

World Class Player Abilities Apply techniques such as the Cruyff turn, or play out patented free kicks in front of your teammates and defense. Scoring and defending are unique to FIFA, and you can tackle any player with skill and precision.

Gameplay Revolution Mimicking the real-world, FIFA players can now drive the ball directly from a free kick into the opponent's net. With an offside trap, you can trap any opposing players on the edge of your own penalty area, and, using the new wall pass, take a shot directly from within the box.

New Player Skills It's never been easier to play like Lionel Messi or Cristiano Ronaldo. Quick Shoot control makes the ball rise up and over defenders, and we've made deflections easier to score with a new deflection angle.

New Player Traits Give your teams a competitive advantage against all shapes and sizes. Aggressive and/or strong players require more defending as they take on your opponent's attackers.

Revolutionary Commentary Stream a battle between any two teams. Get all the details on the new free kick system and it's no longer just a free kick, it's a 'Kick and Rush'. Feel every tackle with the "Tackle Shot" system. See the best reactions to a free kick. Hear from the officials and discuss the goal rule.

Animation & Player Details We've gone back to the drawing board to animate the whole game. When you take control of a player for the first time, you'll notice that he's more realistic, and with more detail and graphics than ever before.

New Career Mode From an all new "Create a Team" mode, to a true online future with the all new "Be a Pro" mode, FIFA 22 offers a new, more detailed style of gameplay.

New Features New Season. Every season in FIFA is now more in tune with the real-world, as all new teams, stadiums and kits are available. Be a Pro - take the reins of a young player and mould them into a real-world player.
