Ducks Unlimited Screensaver was created as a beautiful slideshow screensaver that allows you to celebrate and enjoy waterfowl hunting. Now you can decorate your desktop every time your computer screen goes idle with beautiful images of waterfowl and the fascinating sport of waterfowl hunting. Each time the screen is idle, an image of a Duck or Goose will appear with a message

encouraging you to go out and enjoy waterfowl hunting. 100% free screensaver: Just download Ducks Unlimited Screensaver and place it on your desktop. You will be prompted to rate the screensaver to help us recognize and evaluate your opinion about it. If you like it, you can continue and install it and enjoy for free. The PC shows a beautiful image of ducks/geese in the water or land. The results for the computer uses screen savers

for waterfowl hunting. It features a variety of backgrounds such as the vibrant water of a hunting area and the slim appearance of a bird. Since it is 100% free, it can be used without any restrictions by all users. So go out hunting, it's a great sport! The Ducks Unlimited Screensaver is a unique, useful and free screensaver that lets you celebrate and enjoy waterfowl hunting. You can use it as a decoration on your PC desktop or to

highlight photos. Reviews I installed this screensaver, but the images are of terrible quality. While I can see a duck flying against the sky, the duck is very small and its beak is half-visible. It is also annoying that the wording on the duck's body is too small and so it doesn't fit the screen. These flaws are probably because the images are of a very low resolution. How to unify the size and the text font in a screensaver? DEL: Thank you for your

comment. We hope you will find the right solution for your problem. You can try to increase the resolution of your screen (Windows key + Pause key) and if that is not enough, you can also increase the font size under display properties.
