Instructions for Visual Studio 7 Customers How to order: Visual Studio 6.0 Service Pack 5, Macro Assembler 6.11, Visual C++ 1.2 (English) Visual Studio 6.0 09/04/2010 Visual Studio 6.0 Service Pack 5, Macro Assembler 6.11, Visual C++ 1.2 (English) Visual Studio 6.0 . History In late 2008, Visual Studio Express editions were discontinued. All of the versions of Express that corresponded to previous releases of Visual Studio maintained backwards compatibility with its predecessors, but no longer support newer features. These are not intended as full-blown versions of the product but as "lightweight editions" targeted at developers who do not require advanced versions of Visual Studio. This new naming scheme helps differentiate the editions from the versions. Every version since 2005 corresponds to a particular edition. Professional Visual Studio 2005 - released August 2005, the first version to be available to customers as an on-demand download. Download code is provided for the full version, the Professional Express edition, and Microsoft Security Essentials. Both editions are available for 32-bit and 64-bit Intel-based personal computers. The full version is free, while the Professional Express edition is available for a licensing fee. The Professional version includes all Visual Studio languages and components. It also includes a copy of Visual Basic 2005, which is available as a free upgrade for customers who have Visual Basic 6 installed. Visual Studio 2008 - released August 2005. Includes the same components as the 2005 version with the addition of ASP.NET 2.0, Data Access, ASP.NET Dynamic Data and Silverlight. The Professional version is available for 32-bit and 64-bit Intel-based personal computers. Visual Studio 2010 - released August 2010. Decided September 5, 1957. \*120 Grice & Miller, John W. Norris, for plaintiff in error. Reuben V. Calhoun, contra. \*121 GARDNER, P. J. The case of Tiller v. Norton Lumber Co., 82 Ga. App. 328 (60 S. E. 2d, 518), cited by counsel for plaintiff in error, is not in point. In that case the plaintiff had filed a declaration for \$22,000 on a note and mortgage. The defendant answered that the \$22,000 was over and above the amount plaintiff had loaned on the purchase price of the property and that plaintiff had made advancements on the purchase price and made improvements on the property prior to the signing of the contract which were in excess of \$22,000. The plaintiff filed no reply. The trial court, in the absence of a cross-action by the defendant, allowed the plaintiff to recover the \$22,000 that was owing on the purchase price and added to it the amount of the advancements, etc. The defendant thereupon filed a counterclaim for the entire \$26,500. The plaintiff's motion for a nonsuit was denied and this court held that the plaintiff was not entitled to recover the entire amount but was entitled to recover only for the amount of the purchase price, with interest and improvements, and that in this case the plaintiff was entitled to recover only for the purchase price and interest, and the defendant, on account of the plaintiff's failure to file a cross-action on the purchase price, was entitled to a judgment for the entire \$22,000. In the case
