Tip The following are some of the tips and tricks to be aware of when doing image editing: * **Always add a new layer**. This helps you keep track of what you're doing, and layers are always saved before you save your image. * **Save a Photoshop PSD**. Save a PSD file instead of an EPS file. Saving a PSD enables you to save your work for use at a later date and recall it exactly. * **File size and quality**. Watch out for file sizes that may take a long time to complete. A high-quality large file size may be an indication of a blurry image. You may need to reduce the size of the image (decreasing the file size) before printing or sharing the image on the Web. * **Resize or Zoom**. When you're creating a banner, for example, it's wise to check if the banner is too big or too small. Try zooming in and out to find the best size. You can also resize the dimensions of your image to achieve a good fit. * **White balance**. Watch out for colors that are too blue or too red in the shadows. In some images, the colors are too warm in the shadows, while in others they are too cool. Fixing this problem can make the image look much more balanced. See the sidebar "Fixing color casts" for ways to fix this. * **Monitor color calibration**. When using the view mode Color, check that the monitor you're using for image-editing work is calibrated. Color calibration is explained in Chapter 11.

Q: iOS iTunes Connect App Distribution I submitted my iOS application to app store and i successfully got the 'pending review' status. I went to iTunes Connect and on the 'Certificates, Identifiers & Profiles', i selected the App that i uploaded. Then, i have the 'Manage your Applications' option. I can see the status of my app, but then i want to see the status of my payment receipt (Odyssey). My question is how can i see the status of my payment receipt from iTunes Connect. I mean, the status of the payment receipt in the internet.. not in the site of the developer. For example, i was in Jolla official site and the 'Your Purchase' section says, 'Any App Purchase that you make in Jolla Store is processed using the Jolla Billing system'. On the iTunes connect, in my case, Apple takes care of all the app update, release it in the appstore and take my money. How can i see the status of this process? A: The answer to this is that you cannot. The service which will allow you to view your payment receipt is the service of your payment provider. You will have to contact them for the status of it. The agenda is set for a possible referendum on independence in Scotland, after the SNP won the largest share of votes in Scottish elections on May 7. On Sunday the Scottish National Party won the largest number of votes in the 2014 Scottish Independence Referendum. The document which states the details of the proposed proposed EU vote is being drawn up at the Scottish Ministry of Justice in Edinburgh. The main EU figures are preparing for the vote, which will take place in three phases at 2 years, 5 years and 10 years. It would also set out the criteria for a successful vote, which would then have to be ratified by Parliament. Budget The Scottish finance minister, John Swinney, has outlined in advance that the project will require a multi-year financial commitment, estimated at around £45bn. He is also not ruling out the possibility that the electorate could be asked to vote again in five years time if they vote No in the first referendum and again in the second in three years time, if they vote yes in the first referendum. The Scottish Finance Secretary John Swinney, said that the Yes campaign has "the greater risks in respect of the
