Choose from up to 3 different work areas, record as many instruments and tracks as you need, mix in 5-band parametric EQ, and send your mixes to 5 hardware and software...Q: Android intent not working after updating to API 23 I recently updated my android app to API 23 and I notice that all intents are not working. (The code is fine, I can run the intents without issues) For instance, I want to launch activity A from activity B. Intent intent = new Intent(this, ActivityA.class); startActivity(intent); The main activity opens correctly but the new ActivityA and its onCreate never get called. I tried to change Manifest but it didn't help. Could someone help me on what can I do? I

tried this on a brand new project with API 23. Thanks a lot. EDIT: I also tried to compile a new project with the same test and API 23 and it has the same issue. I can't comment so I can't share the project but I can attach my files if someone has an issue with my files. Code is in Kotlin since it was created with kotlin create project. A: I had a similar issue and I solved it by changing "Package Name" in app/build.gradle. What I did: I noticed there was "android.support.multidex.MultiDex" in my compileSdkVersion (27) and compileOptions (targetSdkVersion set to 25) so I commented multidex line and the issue was fixed.
