Q: How to remove eye buttons in Bluetooth headset? I have Sony c6 and when I connected my phone to it (my Android 4.1 is connected with it) I can hear the sound by headset and I can also see it in the list of connections devices, but I can't remove it. I already tried to remove it in "setings" but I didn't succeed. In settings also, I looked at the connection type and it says "bluetooth, voip" Thank you all for your help! A: I found solution. My phone has a problem about pairing when you want to remove it. So I needed to rescan it. I found the solution in: There is a section called "rescan phone" Oh no! That's a different kind of body, or at least a different kind of belly. For women, it's a constant thing, waiting to grow and then eventually growing bigger and bigger. But for men, that's less the case. His belly never seems to get big no matter how many babies he has, or what he eats. Instead he gets big in the back and the shoulders, which is okay, but who wants big belly? As men age, they're also more likely to lose their hair and experience premature wrinkles. It's happened to me, and I'm sure to many other men. What can you do about it? You have a few options. Stop shaving Tired of the razor burn and ingrown hairs? Is that the main reason for shaving? Stop shaving and see if you still enjoy it. If you do, then you can continue. It's very hard to stop after the first few weeks. It actually takes longer to stop than it did to start. While the result is a lot smoother and it smells better, it's difficult, especially when you've developed a nice, even looking skin. You end up with razor bumps, ingrown hairs, and a dry, itchy skin. But stop shaving, and you'll find a nice, soft skin that doesn't have a rough appearance that's caused by scraping your skin. And you won't
